4.1. Description of first aid measures

General instructions: Immediately rinse with soap and plenty of water. Use personal protective working aids. If inhaled: Transport the affected person into the open air. If there are respiratory complaints, oxygen must be administered. If irritation persists, seek medical advice. In case of skin contact: Wash contacted area with soap and water. Remove contaminated clothing. If irritation occurs, seek medical advice. In case of contact with eves: Rinse with a stream of water for at least 15 minutes. Thorough rinsing must be ensured by

In case of contact with eyes: Rinse with a stream of water for at least 15 minutes. Thorough rinsing must be ensured by opening the eyelids. If irritation occurs, seek medical advice.

If ingested: Do NOT induce vomiting. If conscious, rinse the mouth and administer a large amount of water to dilute the substance. In the case of unconsciousness, never administer anything orally. If irritation occurs, seek medical advice.

## 4.2. Most important symptoms and effects, both acute and delayed

- No data available
- **4.3. Indication of any immediate medical attention and special treatment needed** No data available

#### SECTION 5. FIRE-FIGHTING MEASURES

### 5.1. Extinguishing media

- Carbon dioxide, dry powder, foam, water
- 5.2. Special hazards arising from the substance or mixture

# None 5.3. Advice for firefighters

Wear appropriate personal protective equipment and clothing. Wear self-contained breathing apparatus, if necessary.

#### SECTION 6. ACCIDENTAL RELEASE MEASURES

6.1. Personal precautions, protective equipment and emergency procedures

### Avoid contact with skin and eyes. Wear suitable personal protective clothing.

### 6.2. Environmental precautions

Avoid penetration into sewerage systems, surface and ground water. Avoid soil pollution.

### 6.3. Methods and material for containment and cleaning up

Cover with suitable absorbing material. After removing the substance, rinse the spot of spilling thoroughly with water and soap. Dispose of waste according to all federal, state, and local regulations.

## 6.4. Reference to other sections

See Section 8 for personal protective equipment. See Section 13 for appropriate disposal methods.

### SECTION 7. HANDLING AND STORAGE

#### 7.1. Precautions for safe handling

Avoid spills. Avoid contact with skin, eyes and clothing. Use suitable protective means to work with the substance. Use in a well-ventilated area. Follow good manufacturing practices when using product. Do not drink, smoke, or eat in work areas.

### 7.2. Conditions for safe storage, including any incompatibilities

### 7.2.1. Kit and unopened components:

Store at temperatures between + 2 and + 8 °C in a dry and dark place until expiration date.

7.2.1. Opened components:

Opened reagents are stable for sixty (60) days when stored at 2-8 °C.

- 7.2.2. For prepared reagents (see product insert):
  - Diluted wash buffer should be stored at room temperature (2-30 °C) for up to 60 days.
  - Working substrate solution should be stored at 2-8 °C and is stable for one (1) year.

#### 7.3. Specific end uses

Product procedure should be performed by a skilled individual or trained professional for in vitro diagnostic use only.

#### SECTION 8. EXPOSURE CONTROL/PERSONAL PROTECTION

#### 8.1. Control parameters

No substances with occupational exposure limits.

### 8.2. Exposure controls

8.2.1. Eye/face protection: Safety glasses or goggles with side shields recommended

None

8.2.2.	Skin protection:	Compatible protective gloves recommended. Wash hands after property removing and
		disposing of gloves.
	Other skin protection:	Laboratory coats are recommended.
8.2.3.	Respiratory protection:	No respiratory protection is required. Use product in rooms enabling good ventilation. If
1000	122 124 124 124	local exhaustion is necessary, general (forced) exhaustion is recommended.

8.2.4. Thermal hazards:

#### SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

9.1. Information on basic physical and chemical properties

## 14.4.Packing group

### Not available

### 14.5.Environmental hazards

Overland transport (ADR/RID): None Water transport (ADN/IMDG): None None

Air transport (ICAO/IATA): 14.6.Special precautions for user

### None

14.7.Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code Not applicable

#### **SECTION 15.**

#### **REGULATORY INFORMATION** 15.1.Safety, health and environmental regulations/legislation specific for the substance or mixture

SARA Reporting Requirements: None

TSCA All components in product preparations are lifted on the US Toxic Substances Control Act inventory of chemicals or are exempt from listing.

This safety data sheet has been prepared to comply with the requirements of Annex II, European Community Regulation No. 1907/2006 REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals) and OSHA (Occupational Safety & Health Administration) 1910.1200, Appendix D.

### 15.2.Chemical safety assessment

None

#### SECTION 16. OTHER INFORMATION

Revision 3 (2019-Sep-17): Updated to include component pH value details Revision 2 (2015-MAY-05): updated to comply with requirements of Annex II, European Community Regulation No. 1907/2006

(REACH) and OSHA 1910.1200, Appendix D

Revision 1 (2010-DEC-01): updated to 16 point format

Revision 0 (2005-DEC-22): Initial creation

Hazard Statements		Hazard Class and Category Codes	
H314	Causes severe skin burns and eye damage	Skin Corr.	Skin Corrosion/Irritation
H335	May cause respiratory irritation	STOT SE 3	Specific Target Organ toxicity - Single Exposure
Hazard Codes		Risk Phrases	
С	Corrosive	R34	Causes burns
Xi	Irritant	R37	Irritating to respiratory system

The material safety data sheet contains data necessary to ensure safety and health and environmental protection in working with chemical substances. This product is a chemical substance and can be solely used by persons with chemical education at their own risk. Monobind kits are designed for biomedical research. The manufacturer has no responsibility for damage caused by unsuitable use and by disrespecting the enclosed working instructions. The above-stated information cannot be considered as complete and must be understood to be only a methodical instruction.
